The Philippine Statistical System (PSS), spearheaded by the Philippine Statistics Authority (PSA) is now calling on practitioners, theoreticians, and researchers in the statistical and related fields to participate in the 14th National Statistics Convention (NCS) on 1-3 October 2019 in Manila. The event is the country's biggest gathering of statisticians, data providers and users as well as other stakeholders of statistics conducted every three years. The 14th NCS coincides with the opening of the 30th National Statistics Month (NSM) celebration. The convention aims to: (1) to provide a forum for exchanging ideas and experiences in the field of statistics and for discussing recent statistical developments and prevailing issues and problems of the PSS; and (2) to elicit the cooperation and support of statisticians and professionals in related fields from the government, academe and private sector towards a more responsive statistical system.

Since its inception, the Convention has continuously provided a venue for knowledge exchange in the field of statistics and discussion of prevailing statistical developments, issues and challenges in the PSS. It has also resulted in a more responsive statistical system through strengthened cooperation and support mechanisms for statisticians and professionals in related fields from government, academe and private sectors. This year, the 14th NCS will feature plenary sessions, invited/contributed paper sessions, poster sessions, panel discussions, statistical trainings, and the Statistical Information Management Exhibit (SIMEx).
