SGC FUNCTIONALITY ASSESSMENT TOOL

For Secondary Schools • 2023 Rollout

In relation to the mandate of DO. 26, s. 2022 on the establishment of School Governance Council (SGC) and to ensure that all public schools are able to create functional SGCs, the Bureau of Human Resource and Organizational Development – School Effectiveness Division (BHROD-SED) shall conduct a monitoring and evaluation of SGCs through the SGC Functionality Assessment Tool ("SGC Tool").

UNDERSTANDING THE SGC FUNCTIONALITY ASSESSMENT TOOL

This **SGC Functionality Assessment Tool** aims to assess the functionality of SGCs in secondary schools. The Tool consists of the following components:

- **Two (2) Main Purposes**
 1. To provide structure for **shared governance**
 2. To provide a **feedback mechanism**
- **Twelve (12) Functionality Indicators**

Functionality indicators are anchored on the two main purposes of the SGC and can be found in Section VII of DO 26, s. 2022. In this SGC Tool, these indicators are grouped according to the functions per purpose. Additionally, a brief description on how the Functionality Indicator can be observed is also included to provide schools with further guidance in establishing functional SGCs.
- **Nineteen (19) Functionality Sub-indicators**

In this SGC Tool, there are seven (7) functionality indicators that have sub-indicators. Sub-Indicators are the specific activities that enable the achievement of their corresponding functionality indicator. These are divided into:

 - A. **Primary Sub-Indicators**, which are the sub-indicators that **determine the achievement** of their corresponding Functionality Indicators, and thus must be met; and
 - B. **Other Sub-Indicators**, which are the sub-indicators that SGCs may comply with, only when the Primary Sub-Indicator is met and applicable.

The result of the assessment shall be used as information in identifying priority areas that may need support and assistance from the different governance levels.

Determining a Functional SGC Through the SGC Functionality Assessment Tool

For an SGC to be considered functional, the Council must be able to **comply with at least 10 out of the 12 (at least 80%) Functionality Indicators** based on the **minimum MOVs** submitted. Thus, at a minimum, functional SGC complies with the following requirements:

1. **Functionality Indicators** without sub-indicators are observed (*Yes to all Functionality Indicators without sub-indicators*);
2. **Primary Sub-Indicators**, under Functionality Indicators with sub-indicators, are observed (*Yes to all Primary Sub-Indicators*);
3. **Minimum MOVs** are submitted.

The **Other Sub-Indicators** are also recommended to be attained to further strengthen the SGC's functionality. **Additional MOVs** may be submitted when available to showcase its advanced practices. In addition, ensure that the MOVs are complete and readily available during data validation of the SDOs and/or BHROD-SED.
