The format of the Regional Procurement Monitoring System (RPMS) is identical to the template of the Procurement Monitoring Report (PMR). However, there are several distinctions in the required input fields to provide the necessary information for our report. The data submitted by the Regional Office (RO) and Schools Division Office (SDO) will be presented to the Project Implementation Review (PIR) and other related activities that require such information.

The RPMO is currently enhancing the RPMS and will soon be transitioning to a fully developed website, which will be accessible by the assigned focal person for ROs and SDOs. As we proceed with this procedural undertaking, the integrity of the data of your deliverables will play a pivotal role in the success of our project.
